DETAILED ACTION

Response to Amendment

1. This communication is in response to applicant's amendment filed November 01, 2004.
Claims 1-15 are pending.

Claim Objections

2. Claim 4 is objected to because of the following informalities: in line 11, "the different output" should be changed to - -the difference output- -. Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

With respect to claims 1 and 15, the limitation recited in lines 7-8 "said transmission power control generating ... a transmission power control command" is unclear and confusing because the transmission power control is a control value, not a generating means, therefore, it can not generate a command, only the command generating means, recited in line 5, can generate the commands. Further, as recited in lines 7-8, the power control command is generated when SIR decreases or increases. Herein, it is unclear how to determine when the SIR increases or decreases unless a comparison is implemented.

Claims 2-14 are rejected as they depend upon rejected independent claims 1 and 15.

Response to Arguments

4. Applicant's arguments with respect to claims 1-15 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a).

Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
